

MOHAMED MUSTAFA

Front-End React Developer

Cairo, Egypt | +20 100 315 4481 | mohammedmustafaibrahim02@gmail.com

[Portfolio](#) | [GitHub](#) | [LinkedIn](#) | [WhatsApp](#)

PROFESSIONAL SUMMARY

Passionate and detail-oriented Front-End React Developer with experience building responsive, performant, and accessible web applications. Proficient in JavaScript (ES6+), React.js, Vite, Tailwind CSS, Bootstrap, and RESTful API integration. Dedicated to writing clean, maintainable code, translating UI/UX designs into seamless digital products, and continuously adopting modern web engineering practices.

TECHNICAL SKILLS

Frontend & Frameworks:	React.js, JavaScript (ES6+), HTML5, CSS3, Vite, Redux / Context API
Styling & UI:	Tailwind CSS, Bootstrap 5, Responsive Web Design, Material UI
API Integration & Tools:	REST APIs, Axios, Fetch API, Git, GitHub, npm, VS Code
Design & Workflow:	Figma to Code, Cross-Browser Compatibility, Web Performance Optimization

KEY PROJECTS

Interactive E-Commerce Platform

[React.js | Tailwind CSS](#)

Technologies: [React.js](#), [Context API](#), [REST API](#), [Axios](#), [Tailwind CSS](#)

- Developed a fully responsive e-commerce application featuring real-time product filtering, dynamic cart management, and user authentication.
- Integrated RESTful APIs for live data rendering, implementing asynchronous error handling and optimized loading states.

Personal Portfolio & Developer Showcase

[React.js | GitHub Pages](#)

Technologies: [React.js](#), [Vite](#), [Tailwind CSS](#), [Responsive Design](#)

- Designed and deployed an interactive personal portfolio showcasing front-end projects, core skills, and direct contact options.
- Achieved 100% mobile responsiveness and seamless cross-browser compatibility with high performance metrics.

Dynamic Weather & Analytics Web App

[JavaScript | Bootstrap](#)

Technologies: [JavaScript \(ES6+\)](#), [Bootstrap 5](#), [Weather REST API](#), [Fetch API](#)

- Engineered a dynamic single-page web app fetching real-time weather data and 5-day forecasts based on user search query.
- Implemented custom UI components and modular JavaScript functions for scalable state updates.

PROFESSIONAL EXPERIENCE

Front-End Developer (Freelance)

[2023 – Present](#)

Remote / Freelance Projects | Cairo, Egypt

- Engineered modern, client-tailored web interfaces using React.js, Vite, Tailwind CSS, and Bootstrap.
- Connected frontend client applications with RESTful backend APIs to fetch, manipulate, and display dynamic data smoothly.
- Transformed wireframes and Figma designs into pixel-perfect, mobile-first responsive interfaces.
- Utilized Git and GitHub for clean version control, branching strategies, and project management.
- Debugged complex front-end issues and refactored codebases to enhance rendering efficiency and load speed.

EDUCATION

Higher Future Institute for Specialized Technology Studies

2021 – 2024

Bachelor's Degree in Computer Science | Graduation Project: Grade A (Excellent)

TRAINING & CERTIFICATIONS

Front-End Development Diploma

2024 – 2025

Route IT Training Academy

- Intensive practical diploma covering HTML5, CSS3, JavaScript ES6+, Bootstrap, Tailwind CSS, React.js, Vite, and Git/GitHub.

Web Development Course

2021

Google Developer Student Clubs (GDSC)
